been issued forbidding distinction by railroads and other chartered companies, which are common carriers, in relation to passengers, on account of color, race or previous condition." A convict in Auburn prison had himself boxed up as a case of brogans, and but for an unlucky

mistake in marking the box would have been expressed away to freedom. As it happened, his attempt, like the box, was bootless. In 1853 the Russian army consisted of 580,000 men. At the present time it consists of 800,000 men. The number could be easily increased to 1.800.000, besides 300,000 irregular troops. The Czar has, therefore, a total military force of near-

ly 1,500,000 men. A suspicious clink was heard from the garments of a suspicious female at a recent pic-nic near Gotham, and, on investigation by a blushing Fenian, it was found that she had been stealing lager beer glasses. She had strung them around

her garters. The Nation is right in saying that "if Mexicans would put Escoredo to hard labor in macadamizing roads, hang her brigands, collect her taxes, and establish tolerable courts of justice, we warrant there will be little talk anywhere about regenerating her from the outside. The Chilians are greatly alarmed at the expect-

ed return of the Spanish squadron. The Government freely express their opinion that the Spaniards will very shortly make their appearance Some preparations have been made for the defenc of Valparaiso, but it is feared that they are insufficient, and that the city may be burned. As scalping is a somewhat rare experience, Mr.

THOMPSON'S sensations are of considerable interest. He says that when, after sawing and hacking about his head for half an hour, and giving a finishing cut over his left temple, the scalper gave it a'jerk because it stuck a little, it "just felt as if the whole head was taken right off." The Augusta Constitutionalist of yesterday says:

STEPHEN D. HEARD, Esq., received at his warehouse the first new bale of cotton that has come to the city this season. It is classed a good style of Strict Middling, weighs five hundred and fifty pounds was raised in Chamber County, Alabama, and purchased by Mr. H. F. Russell at 30 cents per pound. General Santos Gutterrez, the actual President of Columbia, arrived on the 7th instant and was received with grand demonstrations. He was awaiting a vessel to convey him to Carthagena. Shoals of humpbacked whales have been discovered just beyond the entrance to the bay, and several captures had been made. The health of the Isthmus was good. The Kingston (Jamaica) Journal says a me

morial was in course of signature to the Government on behalf of the new scheme of American immigration, and the plan was receiving the hearty support of the community. Upwards of a hundred Jamaica colonists, however, left Kingston in the steamer Montezuma, for Colon; and there would have been many more if accommodations could be provided for them. The New Redford Mercury tells of a husband in

New York whose wife died before her dentist had sent home an expensive set of false teeth which he was manufacturing for her. The afflicted husband hastened to say that they would not be needed, but as the job was completed, he had to agree upon a compromise for ten dollars. By way of making the matter satisfactoy all round, the widower begged the use of the teeth for the funeral, promising to return them the next day. We have files from British Honduras, dated at

Belize on the 7th of August. The Commercial Advertiser of that day remarks : "A party of seventeen or eighteen gentlemen, with their families, have returned to Belize from panish Honduras, perfectly disgusted with the soil, climate and government of that republic." The same paper, in a financial and commercial report, gives the following quotations as prevailing in Belize: Rate of exchange of bills on England, \$500 per £100 sterling. Flour, \$14@16 per bbl.; rice, \$6@7 per 100 lbs.; corn, \$2 25@2 50 per bbl.; yams, \$2 25@2 50 per 100 lbs.; beef, \$22@26 per bbl.; butter, 374@ 50c. per lb.; lard, 14@15c. per lb.; pork. \$24@25 per bbl.; mahogany, \$50@80 per 1000 feet, pitch pine, \$35@50 per 1000 feet.

Letters have been received from Peru dated at Lima and Callao on the 28th of July. Congress was still in session. Laws had been passed prohibiting the President from sending away any more guano on consignment, and authorizing him to sell at Lima. All Spaniards who have not be come citizens will now be required to leave the country. The anniversary of Peruvian independence was appropriately celebrated. General Hovey, the American Minister, had gone to Chile it was supposed to facilitate terms of peace with Spain, and Mr. VARNHAGEN, the Brazilian Minister, had gone to Ecuador, probably on account of a misunderstanding with the authorities in Peru. News had been received of the appearance of three Spanish men-of-war at Montevideo, but no confirmation of it had arrived.

On Saturday last, says the Augusta Constitution alis, a white woman in Hamburg requested a colored woman, the wife of an old colored man in the employ of the South Carolina Railroad, to take care of an infant for her for a few hours, stating that she wished to go down the road and would return on the evening train. The colored woman took the child and has it yet, the white woman having failed to return. The woman is described as "good looking," and about twenty-three or twenty-four years of age. The child is a fine boy, about four weeks old. Col. JAMES W. MEREDITH has the little stranger in charge for the present. He thinks the mother should come for her child or send him some clothes, as the little fellow was nearly naked when left in charge of the old colored

The New York Herald has letters from Chile. dated at Santiago, July 16, and Valparaiso, July 17. The return of the Spaniards to the Pacific was regarded as certain, and work on the fortifications at Valparaiso was being pushed rapidly forward. It was rumored that Peru had ordered her squadron to leave the waters of Chile and return to Callao, and hard feelings had been revived in consequence on the part of the Chileans. A rupture of the alliance between the republics would be the signal for an independent adjustment on the part of Chile with Spain. A controversy with Brazil is being carried on in the meantime, regarding the occupation of Rio Janeiro by the Spanish fleet, but it has not been given to the public. Buenos Avres was about to make a demand on Chile for reparation for certain damage done during the Mandogs rebellion. The allied Peruvian and Chilean fleets of the Berlin University, FREDERICK WILLIAM III., were still at Coquimbo. Great alarm existed in Valparaise at the reported approach of the Spani-

Soon after the death of Judge BAKER, of Florida, recommended Hon. JOHN FRIEND, of Fernanding, for the vacancy. General Pope, however, appointed Mr. J. L. HUSBAND, of the Philadelphia Bar, who has only been in Florida since April last, is not a citizen of the State, and has not been admitted to the bar of any of the circuits. We say nothing as to him, but Gen. Pope's conduct in the matter, in disregarding the recommenleast of it. Under the constitution and laws of this State no person can fill any office in the government unless he is a citizen, and it takes twelve month's residence to make a citizen. We think it highly probable, however. that Gen. Pope has been imposed upon. It is zen, if not a practicing lawyer, of the State, but it turns out that he is neither the one nor the reasonable to suppose that the General would reconsider the matter if the facts were made known at all that. God knows why I do it. I am any mander power to set them aside at pleasure.

CURRENT TOPICS.

THE NEW YORK Ledger says: It is compute

that fifty thousand Americans are at present

"doing Europe," and as our fashionable people are migrating in swarms while they remigrate but slowly, it is not improbable that the number will be swelled to one hundred thousand before midwinter. "Dear, delightful Paris" is, of course, the principal pleasure-ground of this debonair crowd. The Centre of Fashion, the Paradise of Intrigue, the Circoan City where the flower-wreathed chalice of Temptation is proffered to Wealth and Folly at every turn, draws our fast young men into its whirl of disreputable dissipation as surely as a beacon light on the scaboard attracts the gulls and fish-hawks. The German Spas, next to Paris. are the places where Americans most do congrepractice of smoking at funerals, although he does gate. Baden-Baden is very dear to them in every senge of the word. There enthusiastic young "Milor Americaines," who travel on their dollars can "fight the tiger" to their hearts' content, and lose their money in grandiose style to needy Teutonic barons and "hard up" duodecimo princes, who pocket it with infinite sangfroid. There, too, those of our lady tourists, who are nothing if not sumptuous, have a fine opportunity to try conclusions with heriditary rank in the matter of fol-de-rols and furbelows. For, at Baden-Baden, be it known, the fair ladies of fashion wear skirts and bodices of Valenciennes lace worth \$30,000 apiece, and pin the feathers of their 'splendiferous" nats with aigrettes of diamonds. Of course, the ladies of our Lords of the Flowing Well, and the fair dames of the lucremongers who have picked up wealth on the war-path, are perfectly at home at Baden-Baden. But, after all, there is nothing like a winter in Paris to freshlygilded Americans of both sexes. Eugenie is there, and Napoleon. There is a chance of getting, by hook or by crook, into the Tuileries, and being gazetted among the "presented." This is by no means a great country in the eyes of many of its mushroom grandees. Fortunately, however, the American millions rate their country and its institutions at their true value, and now that both have been saved from ruin at such a tremendous cost, are prouder of them than ever. Let the bo gus "sovereigns" circulate among congenial

> SPEAKING OF CAPTAIN MARBYATT, the Cornhill Magazine says: "I often wondered where and when Captain MARBYATT had found the time to cultivate his own mind, for he had had but few advantages of actual education. I suppose it was from the great power and habit of observation which he possessed that he learnt intuitively. There was hardly a scientific subject upon which he was not well informed, besides being, as all the world knows, a practically scientific man. I have heard him regret that he was not born a century later than his time, as he considered the world, in a scientific point of view, as comparatively in its infancy. He used to prophesy of the great discoveries yet to be made in steam and electricity. He took a great interest in magnetism and in phrenology, in both of which he was, I am sure, a firm believer He has been told by Townshend that he was himself a powerful mesmerist, but I do not think he ever tested his power. There was hardly a modern language of which he had not some knowledge-grammatical knowledge, I mean. So far as speaking them went, although he would rattle off unhesitatingly French, or German, or Italian, or whatever was called for at the moment, his thoroughly British tongue imbued them all with so much of the same accent, that it was difficult to know what the language was meant for; indeed, he used to tell a story of how an Italian, after listening to one of his long speeches in his purest Tuscan, apologized to him, and said he did not understand English. THE NEW YORK LEDGER has the following stric tures on the nuisances of the day : "The personal system of reporting balls and parties which was introduced into this country some thirty-five years ago, but which we hoped had died out in obedience to the edict of an improved public taste, has influence. recently been revived in all its glory. A CORRESPONDENT writes that religious exclusiveness is still maintained in full force in Sweden He says he was himself lately fined a heavy sum, "for allowing people to come together for worship in his private house, during the hours that the Swedish church held service or mass, as it is yet called, and this fine was exacted by the sanction of the King, before whose court the case was tried." He affirms that "priests, assisted by sheriffs and policemen, do yet enter by force into people's houses, and by force take the infants from anguished mothers' arms, to have them legally baptized; and a case is known in which a poor farmer's only cow has been taken in payment. "A doctor of medicine, the chief city physician, of a large city in Sweden, and highly esteemed, has lately felt compelled to leave the country with his wife and children, owing to the narrow-minded priest policy of the government, debarring his growing-up children from the prospect of ever making a respectable livelihood in their native land." The government does all it can to prevent to make it commercially impossible to ship them direct from Sweden. Consequently they must first go to England, either to Hull or London, from thence they are transferred to Liverpool, where

they take steamships for New York. CHIEF JUSTICE CHASE writes to a friend in Phil delphia as follows, in correction of recent reports concerning his private fortune: "I don't want to be represented as particularly poor or particularly disinterested. I think I am worth now about one hundred thousand dollars. I should at any rate be quite willing to take that sum in five-twenties. and make a clear conveyance of all I have in the world to anybody who will pay my debts. I would willingly be worth a great deal more if I knew of an honest way to get worth more. All that the people are interested in knowing is, that I haven't cent which of right belongs to them. I didn't serve them to make money out of them, but to save money for them; and I really feel that the that Mr. Hill did not proveke them. We have rascals who are slandering me ought to be denounced, and the mean attempt to injure me in the public esteem exposed. It is much more important to the people than it is to me that those who have served them faithfully shall be fully and generally sustained, otherwise rascality will be at which we have not seen noticed in any of our exa premium, and those who are trying to make changes that have discussed Gen. GEN. POPE'S JURY ORDER.

In our paper of Thursday, under the telegraphic head, we published General Popu's Jury Order (No. 53), directing that Grand and Petit Jurors in his District shall be drawn exclusively from lists of registered voters without discrimination.

We learn, upon high authority, that his order is approved by General GRANT and that it is very probable that similar orders will soon be issued in the other Military Districts. We learn furthermore, that the adoption of this measure in this District will depend upon the number of whites that may register. If a considerable number of whites register, the Registration lists will also become the lists of jurors; if otherwise, General GRIFFIN's order, now in force in Texas, may become the rule here: requiring the test oath to be submitted to every juror.

GENERAL POPE AND HON. B. F. HILL.

The press of the whole country at present is occupied with the consideration of the letter ecently addressed by General Pope to Gen - the eral Grant. The views and comm

several organs of public opinion are of course, as is always the case in political questions, ir accordance with the tenets of the respective parties they represent. Thus, if we take up Radical sheet, we know beforehand that we shall there find the course recommended by Gen. Pope toward the Southern States, approved and commended; while, of course, the Democratic press is violently opposed to it, and denounces, in no measured terms, the spirit that could have conceived such a project. There are a few Conservative Republican papers also that have expressed a decided disepprobation of the tyrannical and summary manner, in which the commander of the Third Military District proposes to deal with truculent ex-Confederates. Of these we may mention such pa pers as the St. Louis Republican, the Springfield Republican, the New York Sun, and some other independent papers of more or less

But on the other hand, the New York leaned to mercy's side, and been considered very unsound and heterodox by the leaned to mercy's side, and been considhigh priests of the Republican party-has of late thrown all its influence into the scale of Military Commanders in the South. Much has been said of a revulsion of feeling, now going on in the North, and the sensation leaders of the Herald are pointed to as irrefutable evidences of this revolution of public sentiment. As an offset it may be stated that in April last, when General Order No. 10 was issued in this Military District, the New York Times commented severely upon it, characterizing it, in terms very uncomplimentary, as a very tyrannical measure. Now, this same paper is a staunch supporter of General Sickles, and of General Pors, fully endorsing their orders. The Times, too, we have reason to know, is a paper that is widely read among the best classes of the citizens of New York. True, we cannot say what its motives may be for this course. But surely no sane man, who knows anything of the past history of New York newspapers, will question the honesty of the Times, while he stakes his faith on the Herald. The Evening Post, another influential New York paper, which has always been among the Conservative Republican organs,

now also takes ground against the President and in favor of the policy of Congress. Gen. GRANT, who has heretofore been looked upon as one of the mainstays of Conservatism, and is even now looked upon as the probable Democratic candidate for the next Presidency, upon the receipt of this letter of General Pope, took the unusal course of at once laying it before the public, which, there is every reason the outflow of emigration, and so far succeeded as to believe, he would not have done had he not approved the sentiments set forth in the letter. We regret to say, moreover, that the Northern press is not indignant and shocked at the contents of Gen. Pope's letter, and, if we may judge by the general tone of the papers, we should say that this letter in a measure adumbrates the next act of Congress on

the subject of reconstruction. We print this letter in another part of this morning's Naws, as we believe its careful perusal will be instructive to our readers. It will appear that the course of the Hon. Benjamin H. HILL, of Georgia, was the immediate provoking cause that led Gen. Pore to write this letter. While we have no sympathy with the views expressed by Gen. Pore, or the course he recommends, we are not prepared to say on several occasions examined Mr. HILL's speeches and Notes and have expressed our dissent. We will, therefore, content ourselves at this time by simply quoting the following, Says Mr. HILL-'I earnestly hope the people of each of the ten States will go boldly forward and preserve and continue their existing State Governments, and hold all elections in the manner and at the time prescribed by existing State Constitutions, will choose officers qualified according to existing State Constitutions and lows. If any citizen or officer shall be interfered with in exercising his rights under these laws, or in discharging the duties of any office to which he

Now what does all this mean? Simply resistance to the law of Congress. General POPE then, after all, cannot be the tyrant he is represented to be, when he permits a free press and free speech, as is proved by the publication of these sentiments, and by the fact of his it stated in some of the papers that the object of the letter of General Pope is a defence of his course in not arresting Mr. HILL, as he had been directed by General GRANT. Of this we cannot speak positively.

In conclusion, we will give Ex-Governor

The law of Congress declares the existing State seen more than once my patched sleeves. I laugh governments illegal, and gives the Military Com-FRIEND can take the iron-clad, or whether any other lawyer of the State can thus qualify.

It also confers suffrage on the freedmen, and allows no election to be held till they, with the white men not disfranchised, are registered. The white men not disfranchised, are registered. The

LARGEST CIRCULATION .- The DAILY law also makes it the duty of the Commander of each Military District to see that its provisions are executed, and gives him all the military force necessary to that purpose. Now, suppose on the first Wednesday in October next, the people of Atlanta, or those within the reach of any other military force within the State, deluded by Mr. HILL's advice, should open the polls and proceed to hold an election for Governor, Members of the Legislature, etc., and should allow none but white men, who are qualified under existing State laws, to vote. How long would the polls be open before all engaged in the election would be under arrest and on their way to prison? They would, however, have this single consolation, in their misfortune Mr. HILL advised them "to make the issue fear

icasty." Again, suppose the elections were held in dif ferent parts of the State, without the knowledge of the military, and the Legislature elected should assemble and attempt to inaugurate the Governor elect. What does any man, not blinded with passion, nor demented with prejudice, suppose would he the result?

They would be treated as President Johnson treated the existing government of the State at the time of the surrender. The Legislature would be forbidden to sit, and the Governor would be arrested and imprisoned. And Mr. HILL, should ne attempt either to vote or hold office, in accord ance with his advice to the people, would share the same fate. All who know him are doubtless satisfied that he would not dare attempt to prac tice upon the advice which he gives others on this subject. Like the other points in the proposed remedy, this, too, is utterly impracticable, delusive, deceptive and hopeless.

If Mr. HILL is sincere in this advice, let him make the issue fearlessly." Let him have an election held under 'existing State Constitution and laws,' and let him go and vote at it, or accept office under it. This will test the question, and as he advises it, let him come forward and take the responsibility, and lead his followers. Don't be afraid. Try it. You say there is no Constitutional difficulty in the way. Come up to it like a man, 'make the issue fearlessly,' yes, fearlessly and independently. That is the way to decide the controversy. If you succeed we will soon be rid of military government and negro suffrage. If you fail your followers will see your remedy is a hum-

Some of our readers may be surprised that we should speak so frequently of Mr. HILL. Our answer is, that he has become the representative man of a large party in the South, who most diligently reproduce his speeches and writings. He thus leads the Northern people to believe that these are the sentiments of the people of the South at large; and for the sins of a few, all may have to suffer.

ASTROLOGY.

THE WORLD ASTONISHED

AT THE WONDERFUL REVELATIONS MADE BY THE GREAT ASTROLOGIST. Madame H. A. PERRIGO.

SHE REVALS SECRETS NO MORTAL EVER KNEW. She restores to happinese those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the business you are best qualified to pursue and in what you will be most successful, causes speedy marriages, and tells you the very day you will marry, gives you the names, likeness and characteristics of the person. She reads your very thoughts, and by her aimost supernatural powers, unvalis the dark and hidden mysteries of the future. From the stars we see in the firmament—the malefic stars that overcome or predominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man. Fail not to consult the greatest Astrologist on earth. It costs you but a trifle, and you may never again have so favorable an opportunity.
